Re: Year 5 & 6 Residential Trip June 2025

Dear Parents and Carers,

In preparation for our Residential Trip in June, we are gathering all the necessary medication information. Please follow the QR code and complete the form **if you intend to send any type of medication with your child**. This includes medication that needs to be taken regularly as well as medication that may need to be taken on occasion (e.g. paracetamol, antihistamines).

You will need to complete one form for each medication that is needed. This will ensure our records are up to date and your child's medication can be given when and how needed.

A reminder that medication will be due into the school office by Friday 26th June. It should be in a bag, clearly labelled with the child's name, when it needs to be taken and the dosage. **Children will not be allowed to keep any medication themselves on the residential, all must be given to staff.**

There will be meeting for all parents and carers on **Thursday 7th May at 3.45pm in the KSI Hall** which we strongly recommend you attend, especially if you haven't attended any previous ones. In the meantime, if you have any questions, please speak to Miss Phillips.

Yours sincerely,

Mr Gregory Logan
Head of School

Robin Warren
Executive Head Teacher
